Website visits increased 21% from 2009 to 2010

449,942 people visited this site

Visits: **21.35%**
2,059,997 vs 1,697,617

Website visits decreased 3% from 2010 to 2011

498,239 people visited this site

Visits: **-2.87%**
2,000,932 vs 2,059,997

Unique Visitors: **10.73%**
498,239 vs 449,942

Project outline

1. Collection analysis [content inventory]
2. Create collection policy [content strategy document]
3. Weed the collection [remove/edit pages]
4. Shift collections, re-classify [address information architecture, navigation]
5. Evaluate the findability of the collection [usability testing]

Data collected in the inventory

1. Index number
2. Path
3. Title
4. Menu
5. Format (PDF, HTML text only, etc.)
6. Usability
7. Voice
8. Grade level
9. Currency
10. Target audience
11. Umbrella header
12. Google Analytics
13. Notes
14. Node ID
15. Post date
16. Updated date
17. Published (yes, no)
18. All taxonomy terms

Data exported from Drupal

Data we collected that did not require a judgement call

Writing samples for some voice ratings

Rating H:

Helpful, accessible, friendly

"Library staff members are always happy to assist you with research in-person at the 3rd floor Reference desk on the 3rd floor of the Joel D. Valdez Main Library. An obituary search is an important beginning for genealogy or ancestry research. An obituary search is very time consuming. One search can take over four hours because:

- Obituaries can be published as late as two weeks after a death.
- About 10% of Tucson deaths are not published in the newspaper.
- The indexing of obituaries is poor..."

(Pima Co. library website)

Rating O:

Obtuse, academic, formal

"The library charges \$5.00 per look-up for anyone requesting obituaries who resides outside of Kansas. We charge for looking for the obituary, not for what we find. If an obituary appears more than once, say in subsequent newspaper days, and the requestor wants them both, we charge \$5.00 for each, even if the obituaries are exactly the same. The library charges a \$25 flat fee to look up any name not in our index. We must have the person's name as well as day, month, and year of death. We will look in the newspaper of record for five days, \$5 for each additional day...."

(Topeka & Shawnee Co. library website)

How do you eat an elephant?

Sharing our process & progress

Breaking out
of silos...

Umbrella header: *WCCLS-Wide Resources*

Most popular pages:

1. /library2gohelp
2. /online_resources
3. /lending_library
4. /library_services/online_renewals
5. /lending_library/cultural_pass

Average reading level: 10th grade

Most frequent voice rating: obtuse, academic, too formal

Most common page format: text and images

Data from the site as a whole

Of all the pages on the site, how many got...

... more than 10 views per day	11.9%
... 6 to 10 views per day	5.9%
... 1 to 5 views per day	19.5%
... Less than 1 view per day	62.7%

49.1% of pages had a reading level of 10th grade or higher

20.7% of pages had not been updated since July 2010

50.3% of pages were obtuse/academic/formal in tone

Core web strategy document (examples)

For **whom** does our website exist? **Why?**

We **encourage Washington County residents** to be **lifelong learners**.

We **meet the information and recreational needs** of **WCCLS cardholders** by **connecting them to the collections and resources of WCCLS** in a useful and usable way.

What does our website do for those audiences and those goals?

- We **provide** easy access to WCCLS e-collections.

How does our website meet those needs?

The WCCLS web presence delivers relevant and engaging content in an accessible and standards-compliant way.

We make changes informed by data, user testing, and the WCCLS long-range plan.

Content matrix

Audience [primary & secondary]

Messaging [primary & secondary]

Topics [to meet our audience's need & convey the message]

Purpose of this content [e.g. persuade, inform, instruct, etc.]

Voice & tone

Sources [original & aggregated content]

These categories are taken from [*Content Strategy for the Web*](#) by Kristina Halvorson & Melissa Rach (2012)

Timelines - be realistic

1. Collection analysis [content inventory]
2. Create collection policy [content strategy document] & fill in content matrix
3. Weed the collection [remove/edit pages]
4. Shift collections, re-classify [address information architecture, navigation]
5. Evaluate the findability of the collection [usability testing]

Thank you!
