

Idea Management for Purposeful Innovation

Idea management is a structured process of generating, capturing, discussing and improving, organizing, evaluating and prioritizing valuable insight or alternative thinking that would otherwise not have emerged through normal processes.

What is Idea Management?

YOUR IDEAS ARE IMPORTANT!

Activity: Round One

Write down an idea
you have.

It doesn't have to be
library-related.

Try an idea that you
could work to
implement/put into
action.

What did Sno-Isle
Libraries do?

Staff In-Service Day

October 2013

“Prototyping” session by
Deputy Director

More brainstorming...

Requirements Analysis

Representative group of front-line staff, doers, tech knowledge, idea originator, stakeholders & sponsor.

Common themes from brainstorming that gained traction with our stakeholders become WHAT the solution would do.

Market Evaluation

Emerging Technology Action Group + I.T. Department made recommendations.

Project Sponsor made selection from recommendations.

One year later there are almost 4 times as many software options. See a trend?

<http://www.capterra.com/idea-management-software>

VALUES

Our values are:

- Free and equal access to the library
- Freedom to seek, receive, and share information
- Power of community and culture
- Literacy and learning
- Stewardship of public resources
- Respect for individuals

PURPOSE

Our purpose is to create an informed citizenry by:

- Ensuring free and equal access to information and ideas
- Championing early literacy
- Supporting lifelong learning
- Providing space to think, meet, work, and create
 - Convening people for public discourse

SNO-ISLE LIBRARIES

2014 - 2016

STRATEGIC FOCUS

We will build:

- Literate Communities
 - Early literacy
 - Information and communication technologies literacy
- Economically Sound Communities
 - Entrepreneur/small business support
 - Workforce readiness
- Connected Communities
 - Resident/Library interaction
 - Civic engagement

CORE SERVICES

In keeping with our values and purpose, we will:

- Lend library materials at no direct cost to customers
- Offer expert information and research assistance
- Provide access to information and communication technologies
- Provide resources of value to our customers
- Present early literacy storytimes
- Maintain safe, welcoming public spaces
- Coordinate programs addressing community needs and interests
- Deliver library services where they are needed

6-month Phased Implementation

Month 1-2: Management engaged & evaluate/refine.

Month 2-5: Peer review team recruitment & evaluate/refine.

Month 2-3: Pilot locations & evaluate/refine.

Month 4-5: Expand pilot locations & evaluate/refine.

Month 6: Anticlimactic “Live!” – time to ...?

Idea Management for Purposeful Innovation

[Home](#) > [Strategic Focus](#) > [Idea Management for Purposeful Innovation](#)

Idea Management for Purposeful Innovation

Why are we doing this?

The purpose of embracing idea management is to strategically move forward our public services.

Getting Started FAQs:

How do I log in?

You can sign-in/register with your individual network (Windows) user name and password.

- Please do not register or log in with a shared or personal email.
- If you're using a shared workstation, make sure to start a new browser session & clear the browser cache.
- The IdeaScale log in seems to default to the shared log in or last cached user.
- Welcome to <http://sno-isle.ideascale.com/>!

Can I be anonymous in IdeaScale?

No. You are trusted to use comments to give constructive feedback, add to, and suggest refinements to ideas within SIL values. One of the goals in building this community is to build trust within SIL. We want you to be able to take responsibility and take credit for your ideas! Voting in the community is a feature that shows the popularity and ranks an idea. Voting is one of many factors that influence idea status and you are encouraged to express agreement or disagreement.

What can I contribute?

You can help us meet the purpose of this community by sharing your feedback and submitting ideas that move our public services forward in line with our core service and strategic focus areas. If you've had an idea that would just make things better, easier, clearer, for our customers but you weren't sure who to tell it to or who could do anything about it - this is the place. Helping us build this information and make improvements based on direct feedback will make us more successful in reaching our goal of generating, capturing, discussing and improving, organizing and prioritizing valuable insight or alternative thinking that would benefit library services and otherwise not have emerged through normal processes.

What are the communications standards in this community?

Ideas are in "Idea Team Review" status for up to two weeks. Ideas are in "Operational Manager Review" or "Strategic Manager Review" for up to four weeks before a status change or update in the "Comments". "Selected - In Progress" status does not have a time limit as this can depend on external factors for implementation.

All communications should be considered with SIL norms. If you see a comment that breaks from these norms, please contact the community administrator, Christa Wiers, x1761. Christa will review your report, capture a screen shot of the comment and contact the supervisor of the comment. Supervisors will determine a plan of action for providing feedback about specific comments. Commenter will edit (or delete) original comment based on feedback from their Supervisor. Christa will follow up on the original report.

Idea Review Team:

- Ardie Boyle (MAR), LAL All Large North District
- Ashley Bryson (DAR), PSA
- Elizabeth French (GRA), LAL
- Brian Haight (OAK), TA
- Maria Murvash (MAR), Librarian
- Debra Winder (MCH), Managing Librarian
- Maureen Zimbark (EDM), PSA/IL

Idea Review Documentation:

- [Idea Review Team Job Description](#)
- [Idea Review Team Member Application](#)
- [Idea Review Team Criteria](#)
- [Idea Review Communication Templates](#)
- [Manager Idea Review Checklist:](#)
 - Review the votes and comments for the idea in IdeaScale
 - Call Christa (x1761) or 425-448-2357 for any clarification or help you need.
 - If applicable, complete and upload/attach the Manager Idea Review Checklist (click document link above) to the idea in IdeaScale.
 - If you recently put considered review into the topic, this step probably is not necessary.
 - The checklist is to help if you are not sure how to proceed or need evidence to explain your decision.
 - Another formula that works: cost + risk > benefit = "Not Selected"
 - Add a comment to the idea. The last comment on a "Implemented" or "Not Selected" idea should be yours and summarize a current progress report with next steps or the necessary rationale for your final decision/recommendation.
 - Use the "Change Status" link (upper right corner of idea detail in IdeaScale) and change the Idea Status to:
 - "Not Selected" (the idea will not be implemented now due to cost, available tech, scope relation to strategic focus, etc.)
 - "In Progress" (you'll work on it)
 - "Implemented" (you've done it)
 - If idea is "In Progress", follow up with regular updates in "Comments" when the idea meets milestones. Change status to "Implemented" when you have completed the action that achieves the benefit proposed by the idea. It is your comment + the status that inform the community.

Project Documentation:

- [January 2014 Report](#)
- [Idea Management Process](#)

Activity: Round Two

Refine your idea to align with a shared goal for two minutes.

Think about the stakeholders or a potential sponsor of your idea.

Be vulnerable! Share your idea with a partner for two minutes.

Switch sharing with your partner for another two minutes.

Lessons Learned

Idea Submitter

[DELETE](#)

Just as an FYI, I know that, as do most if not all Librarians. It could be that newer information is available. I also think that someone at Sno-Isle is paid to look at that as part of their job description. Unless of course what you are implying is that everyone who makes a suggestion on IdeaScale has the responsibility to fully research all aspects of their idea. Just to be clear, I wasn't advocating that we add Hindi, just suggesting that it was a recent trend that might bear looking into. But as I said before, we don't need to-- we can keep sending people to Bothell.

I think the real issue is that I misunderstood the purpose of IdeaScale, and for that I apologize.

Marta Murvosh

[DELETE](#)

I'm unclear on whether this is a proposal for all or just one library.

Does anyone know how many of our libraries have informal seed libraries?

If Sno-Isle Libraries were to formalize with seed libraries, the Pima County Public Library in Arizona has a great model <http://www.library.pima.gov/seed-library/> The seeds are cataloged and patrons can place holds on them and have them delivered to their branch.

6 months ago  0 [Vote up](#)  0 [Vote down](#)

Marta Murvosh

[PRIVATE COMMENT](#)

I'd be OK moving this idea to an owner.

I'm assuming the strategic focus is "connected communities" and the core service is providing "resources of value."

6 months ago

Marta Murvosh

[PRIVATE COMMENT](#)

I'm changing my mind and saying let's NOT move this on because the person suggesting the idea didn't articulate strategic focus and core services.

6 months ago

Darlene ML @ MCR

[PRIVATE COMMENT](#)

I like the idea, but wonder how easily (or not) it could be implemented. I doubt it could be done at every library based on workload and staffing alone. Then there is the issue of libraries having appropriate locations to grow gardens. Having said that, given staff availability (and desire), a garden area, this could be an opportunity for partnerships with local garden clubs.

6 months ago

Dawn Rutherford

[PRIVATE COMMENT](#)

This does seem to be an interesting way to "Provide resources of value to our customers" and make for interesting "Resident/Library interactions", but aside from circulating seeds, I do not see this as something staff time should be devoted to. Yes, there could be very interesting partnership potential here (Master Gardeners? 4H? Future Farmers of America?) but it could become an enormous resource draw, and serve only a small portion of our patrons.

PRIVATE COMMENT

Idea Review Team: Reviewed this with Public Services Team this morning. Agreement that this idea is not with the scope of public services (DIRECT customer benefit) in our cores service & strategic focus areas. Let's try out our criteria - do they work? This idea should end up as Not Selected, and with a referral to Ken Harvey, Director of Communications. Ken is responsible for awards applications.

3 months ago

bhaight

PRIVATE COMMENT

Not Selected - Should be referred

This is a great overarching idea. One that could help the specific ideas that do get selected to improve our core services and strategic focus. But I agree that it should be referred to the bigger picture team as it is not specifically tied to the scope of public services (DIRECT customer benefit) in our cores service & strategic focus areas.

I do like the customer service focus that may come from an application and award like this.

From the WSQA website:

This is a great overarching idea. One that could help the specific ideas that do get selected to improve our core services and strategic focus. But I agree that it should be referred to the bigger picture team as it is not specifically tied to the scope of public services (DIRECT customer benefit) in our cores service & strategic focus areas.

I do like the customer service focus that may come from an application and award like this.

From the WSQA website:

Customer Focus

Creating a culture of customer service inside your organization

Customer satisfaction surveys development, deployment, data analysis and planning and executing survey driven improvements

Customer relations - listening and learning to your customers to establish customer requirements that feed into your strategic planning and action plans

Social media and Web based technologies

Audio/Video of author events

 e-mail  e-mail Author  Follow  Assign Owner

Sometimes there are cool author events that interest me at one of the branches but the event takes place at a branch that isn't close to me or it takes place during my work hours. I would like to see these events recorded with decent quality video and audio and either put on our website or uploaded to youtube. I know the Seattle Public Library already does this and it's a nice option for people that can't make the actual event.

State what specific problem is solved or benefit is gained by your idea. Supporting evidence helps!: **This idea allows more patrons to enjoy the author events.**

perhaps live webcasts is a better option: promote and film one time for viewing from the library or home. Timeliness is part of the appeal.

4 months ago 0 [Vote up](#) 0 [Vote down](#)

[ILandon](#)

[Idea Submitter](#)

[DELETE](#)

I wouldn't mind seeing a live webcast option too, but the events should also be recorded and posted so people can view them on their own schedule. I would also like to be able to go back and view events that are months or even years old, kind of like youtube. I think the authors and organizers of these events would like to see as many people as possible view their event.

4 months ago 0 [Vote up](#) 0 [Vote down](#)

[Julie Titone](#)

[DELETE](#)

For now, we're maxed out on our ability to record and making audio/video of events available. Since we all agree there are great programs in the libraries worth capturing, we'll evaluate how we are using our video production time at the end of 2015.

Refunds for Lost Items due to staff error

 e-mail  e-mail Author  Follow  Assign Owner

If someone pays for a lost item and finds it within 6 months they can request a refund from Sno-Isle. However, if someone pays, even though they are sure they returned the item, staff search for it but don't find it, and then it's returned at some later point (for example, because it was mis-shelved), there isn't a way for the customer to know that the item has been found. Therefore, we don't have a way to grant them a refund. Is there a means for Polaris to indicate this at some point, e.g., the next time the item is returned? While a customer does have the choice to do a Claims Returned, they are sometimes reluctant to do this, knowing that there is a lifetime number of Claims Returned.

State what specific problem is solved or benefit is gained by your idea. Supporting evidence helps!: **This idea represents a Strategic Focus value of respecting the individuals who use the libraries.**

What outcome (from customer's view) could be measured for this idea?: **N/A - Submitted prior to current criteria.**

I'd like to think this is Operational?

5 months ago

[Darlene ML @ MCR](#)

PRIVATE COMMENT

Okay, I can go with operational too. However, I think it is "good business" so it rings of strategic too. Let's see how others weigh in. I'm okay, either way.

5 months ago

[efrench](#)

PRIVATE COMMENT

Since this would likely involve changes to Polaris and accounting practices, I'm going to vote strategic.

5 months ago

[Marta Murvosh](#)

PRIVATE COMMENT

Operational, #3

While it would change accounting practices, exploring this option should start with the Polaris team to see if this is something we can even do with Polaris.

It could be expanded at a later time to accounting.

5 months ago

[bhaight](#)

[DELETE](#)

Speaking with my Circulation background voice. Burden of proof has been with the customer. I don't think that is right. So I agree, we need to get on board with refunding to customers when items are returned in the circulation process. And yes, Polaris software can help us do this. (See attached) To use Polaris in this way it would involve a revamp of the current refund process. Current refund process is simple and effective but does it serve the customer? (no direct cost to customers and welcoming refund policy)

5 months ago 2 [Vote up](#) 0 [Vote down](#)

[bhaight](#)

[PRIVATE COMMENT](#)

Strategic - Revamp refund process to make it 21st century. Get rid of paper form and make it an electronic process directly linked to library accounts and accounting. Pretty big system change. But could be done.

5 months ago

[BArand](#)

[Idea Submitter](#)

[DELETE](#)

I agree with Brian that the burden of proof shouldn't reside with the customer. This would mean that they would need to keep asking staff to check to see if an item had been returned so that they could request a refund.

5 months ago 2 [Vote up](#) 0 [Vote down](#)

[Andie LA2AL](#)

[PRIVATE COMMENT](#)

Oops, with 3 strategic votes and 3 operational, it looks like I've been holding this one up. Sorry, Team!

I'm going to make it Strategic as it would affect just about everyone I can think of.

Changing the status, too.

Watch for a Tech News article and documentation in Polaris Plus. We can do this and Charles will enable the Polaris feature on July 30. Basically, if a lost/paid item is checked-in, it is credited to the customer account. We'll generate monthly reports for this (it will be interesting to see how many times this happens), and the customer will receive a refund check. No more burden of proof for the customer.
