## MAKING HEADLINES

### PSESD Teacher Librarian Institute

Don't miss the **2018 PSESD Teacher-Librarian Institute**, August 7 and 8 at South Seattle College! Workshops will be led by several active WLA leaders and members: Marianne Costello, Aricka Dickens, Brian Hanser, Ann Hayes-Bell, and and Lauren Wishkoski.

On August 7, the day before the Teacher-Librarian Institute, there will be Pre-Institute focused on "Cultivating a Strong School Library Program." This Pre-Institute has been developed in response to the need for a space for new Teacher Librarians and Paraprofessionals to receive guidance and strategies for successfully managing a school library. Many different workshop sessions will be offered for small groups to learn with and from experienced, successful teacher librarians.

The day will focus on:

- Weeding and Planting a collection of materials that reflects the needs of the community it serves.
- Fertilizing your school library program so that it grows information literate, lifelong learners.
- Hydrating informational technology skills to support student learning.
- Harvesting the skills and confidence to lead a dynamic library program in the new school year.

The PSESD Teacher-Librarian Institute (August 8) is sure to be a place where you will gain readiness and inspiration for the 2018-19 school year! This year's Institute will provide support in creating culturally responsive libraries with an emphasis on providing accurate and honoring literature about and for Native American children and families' history and culture. The theme is "Heart, Head, and Hands: Culturally Responsive Libraries."

The day will focus on:

- Heart: Create a space where participants are able to engage, reflect, and challenge their racial beliefs and attitudes.
- Head: Provide rich authentic culturally responsive content that builds librarians capacity to assess accurate asset-based information and tools for all children and families. Examine culturally responsive practices recommended in the new library standards.
- Hands: Provide librarians resources and strategies to strengthen and sustain their growth and practice.

## THE LEARNING CURVE

### Developing Digital Citizens - Resources and Strategies

Librarians play a vital role in equipping people to participate in an increasingly complicated information ecosystem that at times seems overrun with things like fake news and misinformation. It can be challenging for young people, in particular, to develop skills they need to deal with misinformation and engage as digital citizens who can consume, create, and share information online.

This webinar will introduce librarians to strategies, techniques, and resources they can

presentation proposals for consideration to our 4th Annual LMCC Conference in St. Louis, Missouri. The conference will be held November 14-15, 2018, at the Hyatt Regency St. Louis at the Arch.

Successful proposals will showcase the tried and true, the latest trends, and the best practices in marketing and communications. Provide practical tips and takeaways that can be immediately applied to any library's communication and marketing efforts. We're looking for speakers who have done this work long enough to have experiences and lessons to share. You should be able to discuss the theory behind your decisions, as well as your actions themselves, and your results. Ideally, your presentation will be applicable and transferable to other types and sizes of libraries.

Have an idea? Please apply! The deadline is May 25, 2018.

### Summer *Alki*: What No One Ever Tells You About Working in Libraries

It's time to submit article ideas for the next issue of *Alki*! The theme for Summer 2018 is "What Nobody Ever Tells You About Working in Libraries." Did you learn more on your first day of work than in two years of your MLIS program? Do you still have to educate friends and family on what modern libraries are all about? As a page (or specialist or associate) do you have a bird's-eye view of what we're

use to help people develop increasingly vital information and news literacy skills. These skills can ensure that people can not only recognize and combat misinformation but can also develop as informed and empowered digital citizens.

### Your Neighbor Is a Writer: Curating a Local E-book Collection

Since 2015, Multnomah County (OR) Library has been providing a way for patrons to contribute to its e-book collection, bringing authors visibility while offering compelling local content to its patrons. The Library Writers Project engages with the writing community while promoting library staff as curators of books worth your time. We'll walk through the project inception and execution, and discuss the place of self-published works in collection development and the role of librarians as tastemakers.

This is the second of two free webinars with content from programs originally scheduled for the PLA 2018 Conference. The two programs were cancelled due to weather-related travel difficulties that prevented the presenters' arrival in Philadelphia for the conference. The first free webinar, "Conflict as Opportunity: Library Restorative Practices for Youth," is scheduled for May 22. Separate registration is required for each webinar.

doing well -- or not? And to take a deeper dive, what do the things you've learned behind the scenes say about libraries moving forward? Please send your article idea(s) to [alkieditor@wla.org](mailto:alkieditor@wla.org) and include:
